Bilateral Meetings

- Tuesday 12:30-13:30
- Tuesday 14.30-16.30.

Description

InoSens is a boutique consultancy focused on bridging the gap between ICTs and the AgriFood sector. It owns extensive and relevant experience in the ongoing EU Horizon 2020 Framework Programme for Research and Innovation (2014-2020). InoSens is comprised of creative individuals with ample experience in proposal writing and project management, user and customer engagement strategies, innovation management, business planning and modelling. It's with this proficiency that the company is able to solve complex challenges in diverse agribusiness setups. Block.IS consortium will bring together digital SMEs that provide blockchain-based business solutions with corporate users from the agrifood, logistics and finance sectors. Besides assisting SMEs in conceiving their business models for blockchain-based solutions, 90 selected SMEs will receive financial and technical support for the implementation of their innovative ideas and their delivery to the market. Block.IS Cluster Missions - supporting tool allowing clusters and SME's to understand and 'feel' the hosting cluster ecosystem, learn the processes required to boost innovation, find out about the available resources, build relationships and expand their networks and capacity to support their SMEs' growth. Block.IS will implement 15 missions along with the 3 years project, engaging more than 75 clusters and 45 SMEs, targeting to have participants from all European countries. Block.IS will provide a travel voucher of €750,00 for each participant (max of 5 Clusters and 3 SMEs per mission). <https://blockis.eu/>
